Arrangements for subject level selection in Maths in light of Covid 19

2nd Year Higher Level Maths Selection 2020.2021

The Maths Department have decided that a test will be given to the current first years 2–3 weeks into the new academic year. This will replace their summer assessment. This result will be added to their Halloween and Christmas results. The average of these results will be used to decide on the level the student will continue studying.

As usual, a minimum average of 55% will be required for a student to be considered for higher-level maths in second year.

Signed: 
School Manager
