## Arrangements for subject level selection in Maths in light of Covid 19

*In the event of over subscription to 5<sup>th</sup> year Higher Level Maths in September 2020 the following arrangement will stand for the 2020/2021 school year:*

Any student wishing to be considered for 5<sup>th</sup> Year Higher Level Maths will sit the 2020 Junior Cert Higher Level Paper 1 when it is released to the schools. This will facilitate the school in allocating students to classes in the best interest of the student.

As usual students must obtain C or higher to be considered for Leaving Certificate Higher Level Maths. Students who fail to achieve a C or higher may be considered for Leaving Cert Higher Level Maths if there is capacity to do so following a series of successful class tests at the beginning of 5<sup>th</sup> year.

Signed:   
School Manager
